III. ACKNOWLEDGEMENTS:

Monsoon Contingency Plan is developed under overall guidance and supervision of **Mr. Tahir Munir Minhas, Director General PDMA**. This MCP plan is prepared in close coordination with government line departments, district administration and humanitarian agencies.

PDMA staff who proactively participated in preparation of monsoon contingency plan (MCP) consists of Mr. Attaullah Mengal (Chairman), Mr. Naseebullah Khan Bazai (Team Leader), Mr. Muhammad Abbas Khan & Mr. Shabir Ahmed.

PDMA also gratefully acknowledges the contributions made to this MCP documents publication by different stakeholders including Government Line Departments, District Administration and Humanitarian Agencies by sharing the necessary information and data to make this document a comprehensive plan.

Author: Naseebullah Khan Bazai, Provincial DRM Coordinator- PDMA Balochistan

IV. EXECUTIVE SUMMARY:

The 21st century has already been marked by escalating economic losses and human devastation caused by natural disasters. Annual figures from 2000-2007 globally average out at 400 disasters per year in 120 countries affecting 230 million people and causing an annual average of \$80 billion in economic losses. Disaster-related deaths occur disproportionately in low and medium human development countries.

Pakistan is at high risk of major disasters, including earthquakes, flash and riverine floods, droughts, nuclear disasters, as well as conflict. The two major earthquakes which hit Pakistan (2005 and 2008) were devastating to the affected communities. Massive flooding in 2010 has caused suffering to over 20 million people, many of whom have lost all their property and livelihoods. In addition, many regions of Pakistan experience ongoing security problems affecting communities and resulting in major population displacements.

The monsoon flooding recurs almost yearly. The ongoing structural poverty experienced by many communities, as well as incomplete recovery of the 2010 monsoon flood-affected districts, pose even greater vulnerability risk to the potential future flooding. Even a moderate flooding could have devastating effects on some of the communities. The lessons learnt from past disasters (2005, 2007, 2010 floods) call for quick and effective actions to control the situation and above all save lives. However, effective action depends on the existence of ready-made and well tested contingency plans.

Keeping in view all above Balochistan Provincial Disaster Management Authority has agreed to prepare an Provincial Monsoon Contingency Plan (PMCP), enabling the government of Balochistan and humanitarian community to be better prepared for the forthcoming monsoon season. The plans are based on mapping of monsoon hazard in 11 of Balochistan, as well as anticipating two possible scenarios and the effect the flooding may have on the communities.

Aim behind this exercise is to outline the mapping of material and human resources available in each department of the Government of Balochistan, & to outline the management and coordination arrangements, as well as provides standard operating procedures (SOPs) for a response phase.

V. OVERVIEW OF BALOCHISTAN:

Balochistan, province of Pakistan is by far the largest in size and the smallest in population. The Province is divided into 30 districts. It covers 34.7 million hectares, almost 44% of the country's land area, with a population of about 6.6 million people (12 persons per sq. km.). The province is located in South-Western (22°N to 32°N, 66°E to 70°E) Pakistan. About 80% of the area can be classified as inter-mountainous. The remaining 20% consists of flood plains and coastal plains. The important mountain ranges are Sulaiman, Toba-Kakar, Central Brahvi, Kirthar, Chagai, Raskoh and central Makran and Makran coast.

Balochistan is divided into 30 districts and it is headed by a Chief Minister who is elected every five years. The districts are headed by the Deputy Commissioner. There are 11000 schools (1-5), 800 middle schools (6-8), 400 high schools, 73 colleges and 5 universities in Balochistan province. The literacy rate is 26.6% with that of males to females being 36.5% and 15.0% respectively. The districts in the province are:

1. Awaran	11. Killa Saifullah	21. Nushki
2. Bolan	12. Kohlu	22. Nasirabad
3. Barkhan	13. Kharan	23. Panjgur
4. Chagai	14. Kalat	24. Pishin
5. Dera-Bugti	15. Khuzdar	25. Quetta
6. Gawadar	16. Kech	26. Sibi
7. Jafferabad	17. Lasbela	27. Sherani
8. Jhal Magsi	18. Loralai	28. Washuk
9. Hernai	19. Mastung	29. Ziarat
10. Killa Abdullah	20. Musakhail	30. Zhob

A. DEMOGRAPHY

As of the 1998 census, Balochistan had a population of 6.5 million inhabitants, representing approximately 5% of the total Pakistan's population.

1998 CENSUS DATA				
BALOCHISTAN	HHS	MALE	FEMALE	BOTH SEXES
Rural	775954	2657043	2340062	4997105
Urban	195162	849463	719317	1568780
GRAND TOTAL	971116	3506506	3059379	6565885

¹ 1998 census figures

² Figures quoted from NDMA's Monsoon Contingency Plan 2008

B. CLIMATE

The climate of Balochistan is continental semi- arid Mediterranean, with annual precipitation varying from 200 to 350 mm and a variable proportion of this total fall as moisture of snow and rain in the mid winter period or as intense showers in summer. The uniform aridity (nowhere exceeding 400 mm on average annually, but in many parts as low as 50 mm annually) makes un-irrigated agriculture impossible.

The climate of the upper highlands is characterized by very cold winters and warm summers. Winters of the lower highlands vary from extremely cold in the northern districts to mild conditions closer to the Makran coast. Summers are hot and dry. The arid zones of Chaghi and Kharan districts are extremely hot in summer. The plain areas are also very hot in summer with temperatures rising as high as 120 degrees F (50 degrees C). Winters are mild on the plains with the temperature, never falling below the freezing point. The desert climate is characterized by hot and very arid conditions. Occasionally strong windstorms make these areas very inhospitable.

C. RIVERS & STREAMS SYSTEM IN BALOCHISTAN:

All rivers and streams are part of three major drainage systems. Coastal drainage system is characterized by small, ephemeral streams and hill torrents. Nari, Kaha and Gaj rivers are part of Indus drainage system located in the northeastern margins of the province. The flow in rivers is typified by spring runoff and occasional flash floods. The rivers beds are dry and look like small streams. Stream gradients are high and the rate of runoff is very rapid. The Zhob River Basin drains towards the northeast into the Gomal River which ultimately joins the Indus River. Streams along the border of Punjab and Sindh provinces flow toward the east and southeast into the Indus River. Balochistan has canal system in district Naseerabad, Jaffarabad and Jhal Magsi.

D. HAZARD & RISK ANALYSIS

Balochistan has been traditionally vulnerable to natural disasters on account of its unique geo-climatic conditions. Earthquakes, floods, droughts, cyclones, and landslides have been recurrent phenomena. Cyclone Yemyen, Ziarat Earthquake and Floods 2010 sufficiently highlighted Balochistan's vulnerability to sea based cyclones, earthquakes, flash & riverine floods caused by heavy precipitation. Historical records indicate earlier occurrence of similar emergency and disaster situations. The hazard chart below depicts the vulnerability of all districts exposed to different kind of hazards.

Note: Ranking based on deliberations with staff from PDMA.

PROVINCIAL DISASTER MANAGEMENT AUTHORITY - BALOCHISTAN

The unprecedented nature of, 2007, 2010 and 2011 Floods caused occurrence of unregulated river flow patterns resulting in widened spans and erosions, at places. Keeping in mind the same PDMA has worked out to identify all the districts that are vulnerable to any kind of floods. 20 out of 30 districts of Balochistan are found vulnerable to floods/flash floods. Among all 20 vulnerable districts 12 districts have been marked by PDMA Balochistan as most vulnerable districts prone to floods. Districts as per their vulnerability are listed below in the table.

S. No	DISTRICT	RISK	S. No	DISTRICT	RISK

VI. MONSOON CONTINGENCY PLAN – 2012

A. AIM

To manage monsoon emergencies by putting in place requisite mitigation measures and a well coordinated and integrated response

B. OBJECTIVES

While encouraging stakeholder's participation, following are the objectives set for the Monsoon Contingency Planning:-

PROVINCIAL DISASTER MANAGEMENT AUTHORITY - BALOCHISTAN

- I. To enhance the effectiveness and timeliness of emergency response.
- II. To ensure that emergency response is coordinated, through the clarification of goals, strategies, roles and responsibilities.
- III. To anticipate and overcome difficulties.
- IV. To strengthen response coordination between Provincial Government Departments, District Administration, humanitarian organizations (UN Agencies, INGOs/NGOs).

C. SCOPE

- I. Stakeholder's participation, awareness and mobilization through Monsoon Contingency Planning.
- II. Determine disaster scenarios and corresponding caseloads.
- III. Resource Mapping for response and identifying deficiencies.
- IV. Define sectoral response strategies, plans and coordination measures.

D. SCENARIOS AND CORRESPONDING CASELOADS

The corresponding caseloads to the scenario are an output of extensive consultation with government line departments, district administration and humanitarian agencies.

1. THE WORST CASE SCENARIO:

Floods 2007 were considered to be the worst in the history of Balochistan. It reflects 2007 Floods with a similar caseload for Balochistan, though its realization seems improbable going by the empirical evidence. Nonetheless, its occurrence cannot be ruled out. However, the planning parameters will be based upon the floods 2007 since 23 districts were badly affected.

District	Population (1998) Censis	Affected Pop	Affected Pop(%)	Human Deaths
Awaran	118173	48609	41%	3
Bolan	288056	12483	4%	6
Chaghi	202564	50165	25%	3
Gwadar	185498	68395	37%	24
Jaffarabad	432817	52942	12%	2
Jhal Magsi	109941	107146	97%	25
Kalat	237834	12539	5%	5
Kech	413204	342308	83%	4

PROVINCIAL DISASTER MANAGEMENT AUTHORITY - BALOCHISTAN

Kharan	206909	100824	49%	20
Khuzadar	417466	98909	24%	69
Killa Saifullah	193553	2160	1%	2
Lasbella	312695	77072	25%	6
Loralai	297555	3280	1%	2
Mastung	164645	9017	5%	1
Musakhail	134056	-	-	1
Nasirabad	245894	32054	13%	13
Pishin	367183	4694	1%	-
Punjgoor	234051	13656	6%	-
Sibi	180398	23139	13%	3
Washuk	-	-	-	18
Zhob	275142	-	-	8

SUMMARY OF DAMAGES

CATEGORY	DESTROYED/ DAMAGED
Affected Population ²	1742911
Died	215
Area Affected	347,190 acres
Completely Damaged Houses	40048
Partially Damaged Houses	100000
Villages Damaged / Destroyed	5000
Educational Institutes	300
Health Institutes	184
Roads	6654 KM

2. LIKELY SCENARIO

2010 floods in Balochistan were considered to be the Moderate/likely Planning caseload for relief support. In floods 2010, 0.75 million populations were affected and 4 district Jaffarbad, Jhal Magsi, Naseerabad and Sibi badly affected.

E. EXPECTED SCENARIOS AND CORRESPONDING CASELOADS

² Figures quoted from NDMAs Monsoon Contingency Plan 2008

PROVINCIAL DISASTER MANAGEMENT AUTHORITY - BALOCHISTAN

The repeat of 2007 flooding may affect 11 districts of Balochistan and may affect 84000 households. Similarly, repeat flooding 2010 may affect 4 districts and 50000 households. The comparison of two corresponding scenarios is as given below:

Likely Humanitarian Caseload in Worst Case Scenario A	
Affected Population ³	Worst case Relief Load
Floods 2007	
Total pop – 1742911	Total pop 630000
	Total HHs 84,000
Likely Humanitarian Caseload for Moderate Scenario B	
Affected Population	Moderate Relief Load
Floods 2010	
Total pop – 750000	Population 375000
	HHs 50000

EXPECTED RELIEF LOAD IN WORST CASE SCENARIO, STOCKS AVAILABLE & GAP

Districts	Expected Caseload	FOOD SECURITY				SHELTER (TENTS)			NFI + WASH

1. KEY HUMANITARIAN CONSEQUENCES:

Disasters such as floods and earth quakes have mainly two dimensions i.e. physical and social. Physical impact includes damage of property and casualties including loss of lives and injuries. Physical impacts are noticeable and can be measured and reported in the form damage need assessment done by government authorities or humanitarian agencies. Social impact on other hand such as social, economic, demographic and political impact can develop over a long period of time and can be difficult to measure. Some of the impact in case of disaster can be,

- Destruction of civic facilities such as health, schools, water system, roads, bridges and communication infrastructure.
- Displacement of population ;
- Loss of lives, high number of injured and psychosocial impact on survivors;
- Number of Vulnerable groups will be Increased (children, women, older people, Guests who do not know local language/ knowledge, disabled and mentally ill)
- Outbreak of communicable diseases;
- Increased risk of epidemics, including diarrheal diseases, malaria, cholera and measles;
- Disruption of education services and reduced access to basic social services;

- Increased risk of gender-based violence;
- Crop, livestock and other types of livelihoods, as well as household assets losses;
- Further increase in malnutrition;
- Food insecurity;
- Protection and human rights threats, including land and property rights;
- Insufficient capacities of humanitarian organizations in case of a large scale disaster
- Security concerns will be increased

VII. COORDINATION ARRANGEMENTS FOR FLOODS

Under the supervision of Ministry of Water and Power, Federal Flood Commission- FFC is responsible for coordination of flood impact mitigation, prevention, preparedness and response in Pakistan. Pakistan Metrological Department –PMD assumes responsibility for ascertaining and communication of early warning to relevant national and provincial stakeholders.

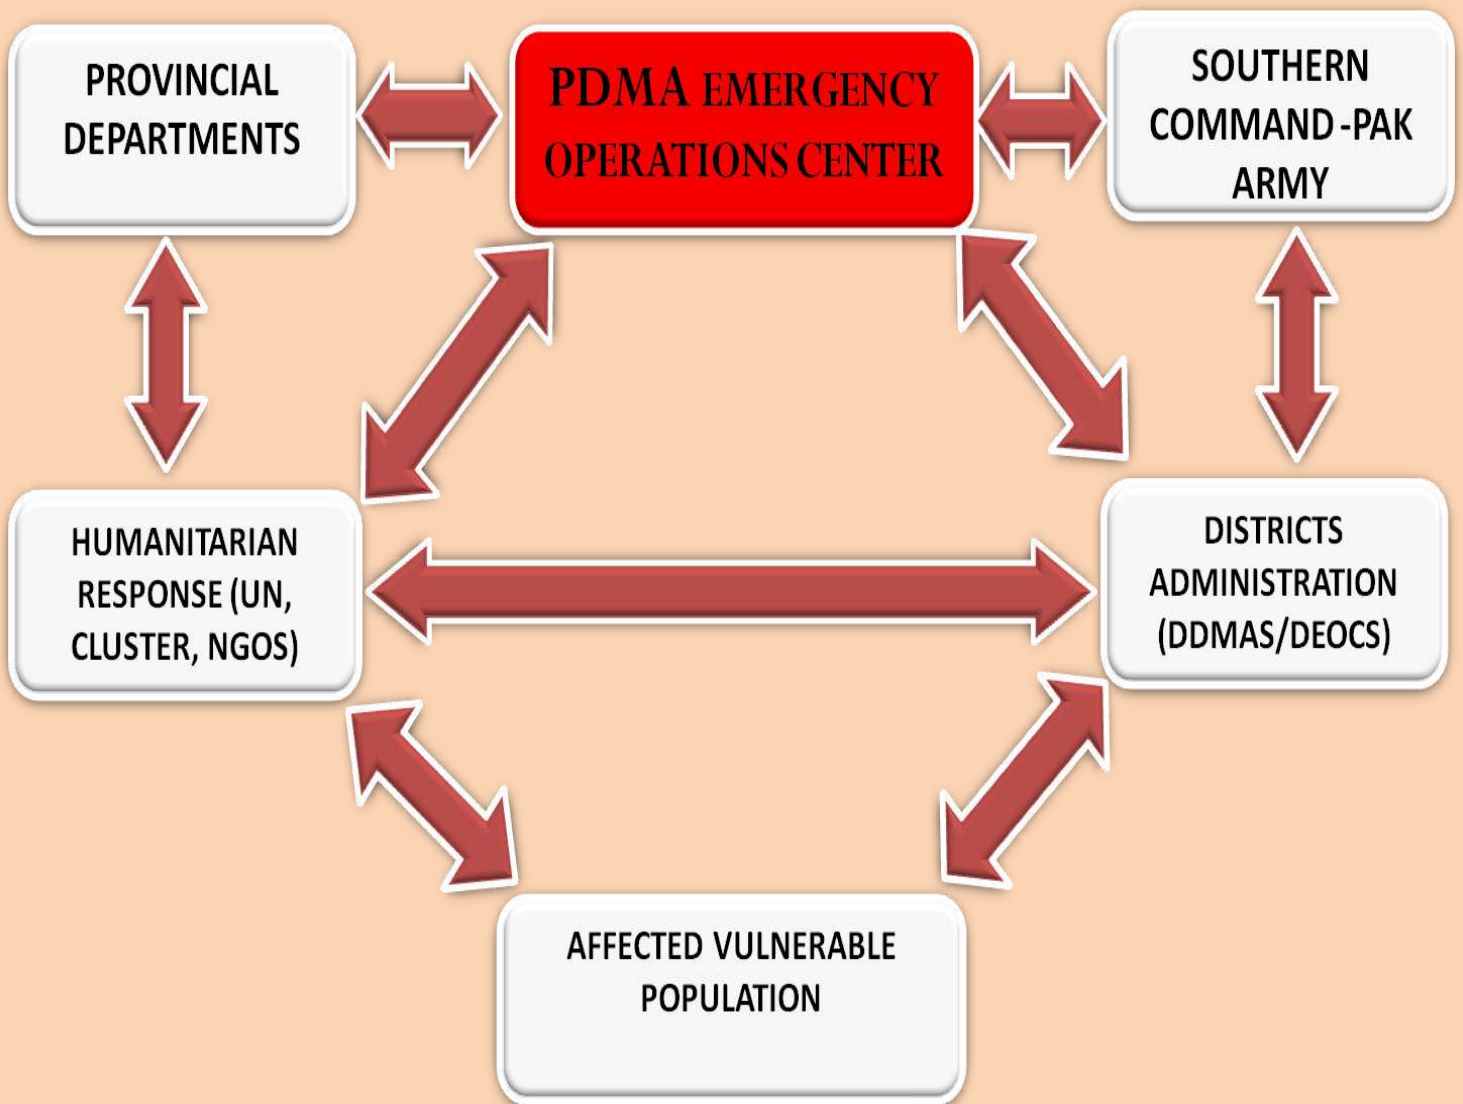

Armed forces Coordinate response (Search and rescue) related measures. NDMA assumes responsibility for coordinating the overall response and relief at national level. Provincial governments pivot provincial coordination for flood preparedness which includes inputs form districts and Provincial Irrigation Department for flood prevention and mitigation and host of measures involving numerous provincial departments and ministries for preparedness and response.

PDMA-Balochistan is the focal point for coordinating provincial preparedness and response to disasters besides post disaster recovery and rehabilitation functions. Its functions include coordination, hazard risk reduction, preparedness and response related measures related to planning for floods and flash floods, need assessments, resource mobilization and generating required response. This entails horizontal coordination with host of government line departments and autonomous bodies that furnish early warning, undertake search and rescue, conduct relief operations and meet needs of vulnerable segments, while vertical coordination occurs with Districts. PDMA coordinates execution of these functions with all provincial entities and federal agencies i.e. Pak Armed Forces, NDMA, Emergency Relief Cell, National Logistic Cell, Pakistan

Metrological Department etc. PDMA shall be the focal point for deploying external assistance for disaster response through Humanitarian Country Team- HCT (Comprising UN agencies, NGOs and donors) and also through agencies, NGOs/INGOs and donors (not committed to HCT coordination mechanism) consistent with provincial and national policies. Similar processes are followed at the district tier by DCs assisted by the DDMUs.

1. MONSOON 2012 COORDINATION ARRANGEMENT

VIII. PREPAREDNESS AND RESPONSE PLANNING

A. PROVINCIAL DISASTER MANAGEMENT AUTHORITY

1. PROVINCIAL EMERGENCY OPERATIONS CENTER (PEOC)

The Provincial Emergency Operations Center (PEOC) will serve as a centralized management center for emergency operations carried out in the Province. PEOC in Quetta shall be responsible for carrying out the principles of emergency preparedness and emergency management, or disaster management functions at a strategic level in an emergency situation, and ensuring the continuity of operations of a Provincial Disaster Management Authority. The PEOC will perform the following functions;

- i. *Coordination and Communications among the PDMA, District Governments, Government Line Departments and UN agencies/INGOs/NGOs*
- ii. *Policy/Planning/Decision making*
- iii. *Operations*
- iv. *Resource requesting, dispatch and tracking*
- v. *Information collection, analysis and dissemination*
- vi. *Preparing operational updates, situation reports*
- vii. *Obtain, process, disseminate and manage all data, information*
- viii. *Forward planning*
- ix. *Facilitate task and Problem management*
- x. *Hosting visitors (VIPs) briefings and debriefings*

a) STANDING OPERATING PROCEDURES⁴

The Provincial Emergency Operations Center (PEOC) will serve as a centralized management center for emergency operations carried out in the Province. The PEOC will also serve as the focal point of the Government's coordination of response and Recovery activities during and after disasters and emergencies. Aim of these SOPs is to identify the role and responsibilities of PEOC and to identify nature of its coordination and communication with different stakeholders i.e District Administration, Government Line Departments, UN agencies etc.

b) ACTIVATION

The level for activating the PEOC will depend on the nature and scope of the threat of disaster to a part of the Province, District(s), Tehsil or Union Council(s) etc

c) PEOC ACTIVATION LEVELS

⁴ Complete Document of SOPs of PEOC is available on PDMA's Web Portal

PROVINCIAL DISASTER MANAGEMENT AUTHORITY - BALOCHISTAN

The levels/Stages are denoted by the following color codes

Level 1 –Green	Normal; Monitoring
Level 2 –Yellow	Watch; Alert
Level 3 –Orange	Partial Activation
Level 4 – Red	Full Scale Activation

As a matter of routine the PEOC will always be at Green; monitoring Level/Stage.

Level 1 - Normal - Situation is monitored by officers in PDMA

Level 2 - Watch - When an event/disaster may occur - notification is made to Agencies / departments and organizations and support staff who would need to take action as part of their responsibilities.

Level 3 - Partial Activation - Limited activation of PEOC when an event/disaster is very probable or following an event which doesn't require full activation. All primary or lead staff will be notified and will staff the PEOC.

Level 4 - Full Scale Activation - All primary and support agencies are notified. All PDMA support personnel will staff the Emergency Operation Centre. Depending on the nature of emergency, the PEOC may operate round the clock.

d) STAFFING:

The Director General PDMA is responsible for coordinating all components of the Disaster Risk Management Systems for the Province. The components consist of activities related to mitigation, preparedness, response and recovery.

e) PEOC ACTIVATION PROCEDURES

In case of a Partial or Full activation, the following process/procedure would be followed:

- The Manager PEOC would inform the Assistant Director (Relief), Deputy Director PDMA, Director PDMA, and DG PDMA.
- Staff of PEOC mobilized
- Depending upon the nature and extent of the disaster, extra PDMA staff mobilized/put on alert/standby
- Relevant Districts/Departments/Actors informed, Focal points notified
- Media Team/Spokespersons activated and notified
- If required Government higher authorities informed
- Warehouse mobilized

f) OPERATIONS

The operations would be undertaken by the PEOC team, headed by the DG PDMA, Director PDMA and Deputy Director PDMA.

g) REQUESTS FOR SUPPORT:

- The PEOC will be responsible for requesting assistance from agencies / organizations to address equipment and personnel resource needs during a disaster.
- Requests for assistance will be recorded (Forms) and reviewed by the OIC.
- The original message requesting assistance will be placed in the appropriate disaster operations file.
- Requests will be tracked and followed up until completion and then filed.

h) INFORMATION DISSEMINATION:

- A daily briefing will be held to update agencies / organizations on the status of emergency operations.
- Additional daily briefings will be scheduled as necessary.
- A daily Situation Report will be prepared and shared with the relevant/concerned authorities. Additional Situation Reports will be provided and disseminated as warranted.
- Information will be disseminated to the public/media etc through the PDMA Media team.

i) STAND DOWN:

- When an emergency/operation is over / finished the Manager PEOC will declare so, in writing and ensure this information is passed onto all the relevant/concerned actors.
- A stand down notification will be issued.
- The operation and procedures will be assessed for improvement.

j) DDMAS - DISTRICT EMERGENCY CONTROL ROOMS

The District Disaster Management Authority DDMA forms the focal point for all DRM related activities in the district. It is therefore important, that the SOPs developed for the PEOC also include a portion on the functions and role of the DDMA in case of disasters and otherwise.

(1) ACTIVATION OF DEOC:

With the activation of the PEOC, the emergency mode of the DEOC will also be activated. During normal times, as with the PEOC in PDMA HQ, the DEOC will be on the Monitoring level. As the DEOC falls under the DC's Office, all activities will be executed with/through the DC.

2. PREPAREDNESS ACTIVITIES OF PDMA

- Prepare emergency preparedness contingency and response plan. Meetings with provincial and district departments.
- Prepare multi hazards and disaster specific contingency plan
- Establish communication mechanisms for early warning system with District's, Meteorology department, Irrigation and other relevant stakeholders
- Share contingency plan with Provincial Emergency Operation Centre (PEOC), DDMA's, line departments, UN Agencies and clusters members.
- Provide technical assistance for preparing disaster preparedness and response plans for each district.
- Facilitate to set up communication with PDMA Emergency Control Room (ECR) and maintain state of readiness with all equipment in working order
- Coordinate with line departments, Local, National, I/NGOs and UN for sharing of resources on preparedness and emergency response.
- Prepare communication and transportation plan for potential disaster response.
- Prepare security guidelines for response teams working in the disaster affected areas

3. RESPONSE ACTIVITIES PDMA

- Activate Emergency Operations Centre (EOC)
- Deploy district Coordinators for the smooth functions of the response
- Conduct initial assessment of disaster affected areas and determine the extent of volume, loss damage and relief required
- Coordinate and inform all concerned departments and stakeholders to get prepared for emergency response (UN Agencies, DDMUs and organizations working on disasters)
- Ensure the provision of food, drinking water, medical supplies and non food items to the affected population.
- Prepare a transition plan from relief to recovery program.
- Organize regular media and public information briefings.

PROVINCIAL DISASTER MANAGEMENT AUTHORITY - BALOCHISTAN

- With support from humanitarian agencies will prepare situation Report on daily and weekly basis and circulate to the relevant departments, UN, DDMA's and other I/NGOs working on the disasters etc.

STOCK AVAILABLE WITH PDMA

NAME OF ITEM	QUANTITY
Tents	3383 Nos
Blankets	10736 Nos
Boats	02 Nos
Mixed Cloths	2235 Carton
shoes	435 Cartons
Generator	15 Nos
De-Watering Pumps	12 Nos
Stretcher	04 Nos
Crockery	380 Cartons
Carpets	1262 Rolls
Tent Large Size	14 Nos
Rice	100000(50 Kg Bags)
Pulses	83 Bags
Sugar	1409 (50 Kg bags)
Cooking Oil	500(5 Kg Bags)

4. PREPAREDNESS AND RESPONSE ACTIVITIES OF DDMA

- Formulation of District level contingency plans
- Establishment of District level flood control rooms and dissemination of contact details
- Arrangements for Quick dissemination of flood warning and establishment of Observation Posts (OPs) on the likely flood areas (threatening)
- Activation of Civil defense staff and volunteers for rescue and relief operations
- Identification of flood disaster prone areas and threatening water channels in respective districts
- Earmarking evacuation arrangements routes, building and guidance etc.
- District level food stock (wheat) and NFIs quantities and locations
- Coordination with humanitarian agencies i.e. INGOs, NGOs and UN agencies
- Need and gap analysis of funds and stores.
- Formulation of comprehensive health response plans in coordination with EDO health.
- Tasking of local police authorities in evacuation and keep law and order situation

- Identification and removal of encroached areas along with DC offices
- Excavation work of threatening water channels
- Maintenance of flood protection works in respective district with sand bags and locally available material
- The training of human resource, especially for operating rescue boats
- Coordination and tasking of all relevant departments for putting in place requisite preparedness measures before the monsoons

B. IRRIGATION AND POWER

Irrigation department will be responsible to carry out the following measures in context to any disaster situation specifically to floods;

1. MITIGATION

- Supervise, direct and control flood prevention measures and bund protection activities, such as the strengthening, maintenance and construction of additional embankments.
- Review of critical water levels to control breaching sections.
- Regular visit and inspection of flood protection works
- Vulnerability and risk analysis for flood prone areas.
- Coordinate with PDMA, Flood Forecasting and Warning Division and jointly identify appropriate actions for reducing the vulnerability of communities to flooding and other risks that may disrupt livelihoods in irrigated areas.
- Protection of barrages, irrigation infrastructure (canals, bunds and spurs etc) and communication network (roads, bridges) etc.

2. PREPAREDNESS

- Establish flood emergency cell, XEN Hydrology department will be focal point of the cell. The emergency will be operational as of 1st June and will be sharing data three times a day. In case of flood the cell disseminates data on hourly basis.
- Placed the requisite machinery and equipment at safe locations near vulnerable areas for emergency use.
- Prepare inventory of equipment and material within nearest locations for each head works and flood protection structure.

PROVINCIAL DISASTER MANAGEMENT AUTHORITY - BALOCHISTAN

- Keep the gauge stations in operational mode and provide information and data to the concerned authorities for the issuance of Alerts and Danger Warning messages.
- Supervise and coordinate actions to save stock, property, machinery, and equipment from flood damage
- Develop a disaster risk management plan to deal with hazards and disasters within the department's mandate
- Allocate funds in the annual budget for the implementation of disaster risk management activities in flood and drought prone areas.

EARTHMOVING MACHINERY DEPLOYED BY IRRIGATION DEPT. AT FLOOD PRONE/VULNERABLE LOCATIONS:

S.No	DISTRICT	DOZERS	EXCAVATOR	LOADERS	TOTAL
1	D.M Jamali	6	6	1	13
2	Usta Muhammad.	4	2	-	6

13	Kohlu	1	-	-	1
14	Dhadar	1	-	-	1
TOTAL		31	9	4	44

3. RESPONSE

- Conduct a survey the extent of damage to bunds, embankments, canals and irrigation tube wells
- Organize and set up the Flood Emergency Cell within the Department.
- Assist and coordinate the repair of public services

- De-silt irrigation canals post-floods
- Provide assistance in safe evacuation.
- Assist the revenue authorities to survey the damaged crops by flooding.

C. HEALTH DEPARTMENT

- Establish a Health Emergency Preparedness and Response Cell in the department.
- Carry out detailed planning with district officials (EDOs) and formulate district level health plans for execution
- Carry out need and gap analysis for medicines and required stocks
- Coordinate with humanitarian agencies i.e. INGOs, NGOs and UN agencies to make up the short falls

D. C & W DEPARTMENT

- Establishment of Provincial Flood Emergency Cell
- Formulate and execute flood emergency response plan
- Preposition available machinery/ plants at vulnerable areas
- Restore severed land communication
- Liaison with local Army Authorities

E. PUBLIC HEALTH ENGINEERING

- Establishment of a provincial flood emergency control room in PHE department.
- Proactively deploy potable drinking water and sanitation facilities in vulnerable districts
- Preparation of Tehseel and District wise list and stock position of flood emergency response equipment and machinery.
- Arrangements and planning for the removal of carcasses and debris after floods
- Contingency plans for immediate restoration of water supply, sanitation, cause ways, culverts, links roads, street lights and public latrines
- Coordinate with humanitarian agencies i.e. INGOs, NGOs and UN agencies to make up the short falls
- Arrange for requisite Water and Sanitation in all the earmarked evacuation centers in Coordination with other departments.

F. EDUCATION DEPARTMENT

- Establishment of a provincial flood emergency control room in education department
- Provide support to the District Admin for establishing evacuation centers in schools and colleges
- Provide a list of all schools and colleges earmarked for evacuation centers to PDMA before 15th June 2012
- Arrange methods for continuation of education in affected areas in case of flood
- Coordinate with humanitarian agencies i.e. INGOs, NGOs and UN agencies to make up the short falls and necessary arrangements.

G. CIVIL DEFENSE

The provincial Civil Defense department in coordination with its District departments will develop its capacity for disaster preparedness and response in all districts. Key functions of civil defense in case of disaster are,

- Formulate and develop organizational Flood Contingency and Response Plans
- Keep the flood response stocks available and carry out need and gap analysis
- Provide support to the Provincial and District Governments

H. PAKISTAN METROLOGICAL DEPARTMENT

- Establishment of Flood Emergency Control Room
- Provide reliable and in time weather forecasts for Balochistan and its catchment areas
- Coordinate, liaison and exchange (credible and comprehensible) information with Irrigation Department and PDMA for early warning as agreed

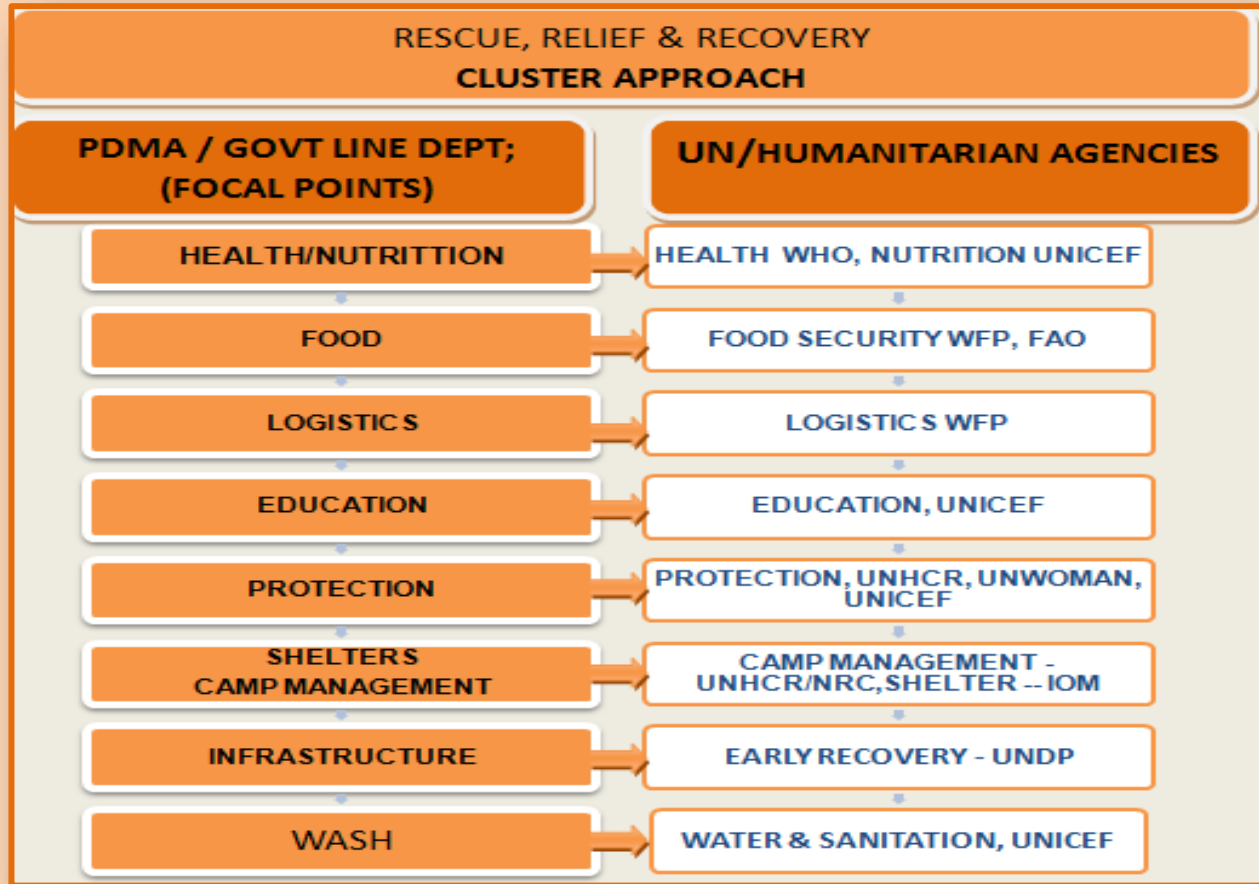

I. UN AGENCIES AND CLUSTERS

UN agencies and provincial clusters have crucial responsibility and role in disaster management and response. Each department of UN has its key function and specialization and in case of emergency UN will be deploying its available resources and capacities. UN is in close coordination with with PDMA and is fully prepared to respond to any unforeseen emergency. They are also involved in trainings and awareness regarding disaster.

As per directions from PDMA, Clusters are mapping capacities and stocks of the operations partners. In case of emergency clear directions have been given to clusters to

deploy their operational partners in districts where they have the geographical reach. The Cluster wise response is as given below:

1. CAMP COORDINATION AND MANAGEMENT (CCCM)

The overall objective of CCCM is to ensure temporary refuge, protection and humanitarian (live saving) assistance to internally displaced population and those that are forced to leave their homes due to the effects of a natural disaster, whilst striving to provide durable solutions, ensuring Gender sensitivity in approach and activities.

2. COMMUNITY RESTORATION

The overall objective of Community Restoration contingency plan is to support Government of Pakistan to ensure that the government and civil society are able to function immediately after a disaster to restore the communities and allow them to have access to basic services.

Specific Objectives

- To ensure that the government structures and mechanisms, particularly the PDMA and the district governments are restored.

- To ensure the removal of rubble and environmental hazards through cash-for-work interventions.
- Provide psycho-social counseling services to the affected population.

3. EDUCATION

The overall objective of Education Sector's contingency plan is to restore normalcy in the lives of children, provide safe access and improved quality of education (including early learning, formal and non-formal education opportunities) in emergency situations in collaboration with partners and cross-sectoral stakeholders, ensuring Gender sensitivity in approach and activities.

Specific Objectives

- Resumption of formal education in safe environment for both girls and boys through reopening of existing schools or provision of alternative learning centers at disaster affected schools.
- Restoration of education infrastructure and provision of consumable and non-consumable school supplies.
- Provide child-centered learning opportunities promoting a conducive learning environment.
- Supporting school-age children, girls in particular, to regularly attend school.
- Promotion of protective, child friendly, and gender responsive school environments.

4. EMERGENCY SHELTER & NFIs

Overall objectives of Emergency Shelter and NFI is to reduce the vulnerability and support the resilience of affected populations by providing basic emergency shelters and NFIs necessary for survival of disaster affected people, in a dignified manner, and prioritizing the most vulnerable populations ensuring Gender sensitivity in approach and activities.

Specific Objectives

- To provide adequate family emergency shelter and associated shelter NFI packages to displaced populations,
- In close coordination with the CCCM sector, design and provide suitable support infrastructure for displaced settlements,

- Coordinate with WASH sector the provision of wash facilities, as well as with other relevant sectors, including Nutrition, Food, Health, Education, Protection and Community Restoration, ensuring the mainstreaming of cross-cutting issues.

5. EMERGENCY TELECOMMUNICATIONS

The overall objective is to provide efficient and reliable communication services to humanitarian community, thus ensuring timeliness and effectiveness of humanitarian response for saving lives in the event of a disaster, and the Presence of a code of conduct to avoid PSEA.

Specific Objectives

- To provide security telecommunication services.
- To provide data communication (internet) services.

6. FOOD SECURITY

The food cluster aims to save lives, avert hunger and improve livelihoods of the people affected by disasters through provision of relief food assistance to meet their immediate food needs, and later initiate early recovery activities to enable these populations to rebuild their livelihoods, ensuring gender sensitivity in approach and activities.

Specific Objectives

- To provide life saving relief food assistance and conditional food support later on as an early recovery measure to help them rebuild their lives.

7. HEALTH

To support Government of Pakistan life saving efforts to promote and protect health and well-being of the affected population thereby minimizing mortality, morbidity and disability during a declared emergency by the UN and Government of Pakistan during the upcoming monsoon season.

Specific Objectives

- To ensure availability of appropriate relevant and competent human resources including managerial staff, doctors, paramedics, logistics and administrative staff.
- To ensure timely, immediate assistance for the resiliency of the health facilities.

- To ensure continuous operational level of health facilities and provide need based mobile health clinics.
- To ensure availability, accessibility and utilization of drugs, medicines and equipment and supplies.
- To strengthen Community Support by facilitating links with local and religious leaders, providing information on the emergency and relief efforts, and offering psychological first aid to reduce anxiety.
- Creating a social safety/security net for health related issues in times of emergencies, in terms of community based disaster risk reduction.

8. LOGISTICS

The objective is logistic cluster is to provide effective logistics services to the entire humanitarian community to support the delivery of relief items to affected areas.

9. NUTRITION

The overall objective of the Nutrition sector's contingency plan is to prepare for measures that will reduce morbidity and mortality due to malnutrition in most vulnerable population of the affected areas reference declaration of emergency by GOP.

Specific Objectives

- To provide 80% of malnourished children and women with therapy, as well as supplement 50 % children under 5, pregnant and lactating women with micronutrient preparations.
- To support appropriate infant and young children feeding to 80% children under 5 years and older. Through the existing 625 therapeutic feeding centers and 575 supplementary feeding centers.
- To prevent acute malnourished children under five, lactating and pregnant women from eventually deteriorating to severe malnutrition.

10. PROTECTION (GENDER-BASED VIOLENCE AND CHILD PROTECTION)

Through the mechanism of Thematic Group on Gender as well as the newly launched, Gender & Child Cell, the overall objective of the Gender inputs in the Monsoon contingency plan is to ensure that any response to natural and complex disasters in the

province promotes gender mainstreaming, in all aspects of policy , assessments, planning and implementation.

Specific Objectives

- Identify key protection concerns and responses. Ensure the identification, reporting, monitoring and to the extent possible response to human rights violations and protection concerns.
- Ensure coordinated inter-agency protection response, including coordination with national actors.
- Contribute to capacity building on Gender Mainstreaming , application of gender markers, assessment & monitoring at various levels (PDMA, Clusters, DDMA, CSOs, CBOs)
- Promote inclusion and participation of communities and linkages with local organizations and civil society.
- Mainstream protection across sectors to ensure the implementation of human rights based approach and related standards, notably humanitarian principles, into all relief assistance and durable solutions.
- Support the creation of a protection conducive environment able to respond to individual protection concerns through referral, information, and advice and service provision.
- Build links between emergency programmes and sustainable Government led response through partnership, capacity building and preparedness.
- Ensure Protection, care and well being of children displaced during the crisis, in accordance with international standards and Pakistan Policy.
- Monitoring and reporting of grave violations and other serious protection concerns regarding children are undertaken and systematically trigger response.
- Psychosocial support is provided to vulnerable groups, particularly women and children.
- Violence, exploitation and abuse of children, are prevented and addressed.
- Multi-sectoral coordination of relevant actors, including government and non government organizations for coordinated prevention and response to Gender based violence at national, provincial and district level.

11. WATER AND SANITATION (WASH)

To prevent the outbreak of water and sanitation related disease as a result of the floods and landslides, ensuring gender sensitivity in the approaches and activities.

Specific Objectives

- Ensure access to safe water, hygiene education and temporary sanitation and bathing facilities for the displaced populations, particularly those residing in camps.
- Ensure that displaced populations are provided with basic hygiene supplies and are properly informed on behavior practices related to water, sanitation and hygiene.
- Ensure all equipment and facilities are provided and displaced populations are empowered to maintain the cleanliness of camps / houses in which they reside.

- iv. **Annex-IV** (List of the focal persons (Cluster wise) of humanitarian agencies including UN agencies, INGOs)

Standard/Standing Operating Procedure for Monsoon 2012

1. Aim

Aim of these SOPs is to identify the role and responsibilities of each Government Department, humanitarian response agencies, and donors, Armed Forces, Divisional and District Administrations.

2. Objective

The objective of these SOPs is to coordinate the efforts by different institutions and agencies, avoid duplication and cross check of the efforts made/claimed by everyone for providing rescue, relief and rehabilitation assistance to the flood victims.

3. Lead Role

The Provincial Disaster Management Authority Balochistan has been constituted under the National Disaster Management Ordinance, 2006 (now National Disaster Management Act, 2011) and it will be the lead agency during not only in Monsoon 2012 but also in any other disaster. All search, rescue, relief efforts shall be carried out under the guidance and supervision of PDMA Balochistan. All Federal Departments rendering services in the Province, Provincial Government Departments, Divisional and District Administrations will correspond with PDMA regarding all issues of Monsoon 2012 including latest situation, release of funds and other assistance.

4. Early Warning

Weather forecasting will be communicated by the Metrological Department to the PDMA who shall immediately convey to the concerned departments and the Divisional and District Administrations at once. The irrigation Department shall monitor the flow in all the flood nullahs/rivers and shall keep posted the PDMA and Divisional and District Administrations. The Divisional and District Administrations shall communicate the communities through already devised mechanism and in case of excessive flow shall evacuate the vulnerable areas in order to ensure minimum losses to lives and properties

5. Suspension of Essential Services

Pakistan Railways, National Highways Authorities, Sui Southern Gas Company, QESCO and Pakistan Telecommunication Limited shall liaison with PDMA regarding any suspension or disruption of services

6. Requisitioning of Armed Forces

If in the opinion of Divisional and District Administration it is essential to request the services of Pakistan Army and Frontier Corps then they will send a formal request to PDMA which shall send a formal request to Southern Command for provision of troops, deployment of helicopters for search and rescue. Mr Attaullah Mengal, Deputy Director PDMA will be focal person in PDMA to handle all affairs regarding requisitioning of Army and for further liaison. His contact details are as given under:-

Phone Office +92 81 2880313
+92 81 2880245
Fax No +92 81 2880189
Cell No +92 333 7921141
+92 344 8060532

Role of Army In a recent meeting with Southern Command it has been decided that sorties by helicopters shall be carried out on the recommendations of Divisional and District Administrations. But

the local administrations are required to have evolve a better system for gathering information and share the same with Army and PDMA

7. Establishment of Control Room

A Provincial Emergency Control Room is being established in the premises of PDMA and is already operational. Normally emergency control room is operating at level 1 always that is PDMA officers are monitoring the situation round the clock and 24/7. The process of activation of Emergency control is as given below:

The levels/Stages are denoted by the following color codes.

Level 1 –Green	Normal; Monitoring
Level 2 –Yellow	Watch; Alert
Level 3 –Orange	Partial Activation
Level 4 – Red	Full Scale Activation

As a matter of routine the PEOC will always be at Green; monitoring Level/Stage.

Level 1 - Normal - Situation is monitored by officers in PDMA

Level 2 - Watch - When an event/disaster may occur - notification is made to Agencies / departments and organizations and support staff who would need to take action as part of their responsibilities.

Level 3 - Partial Activation - Limited activation of PEOC when an event/disaster is very probable or following an event which doesn't require full activation. All primary or lead staff will be notified and will staff the PEOC.

Level 4 - Full Scale Activation - All primary and support agencies are notified. All PDMA support personnel will staff the Emergency Operation Centre. Depending on the nature of emergency, the PEOC may operate round the clock.

The Irrigation, Health, Public Health Engineering and other relevant department shall also establish similar control rooms and it will be ensured that not less than an officer of grade 17 remains present in the control room who shall be fully conversant with all the information relevant to department concerned. Similarly Pakistan Railways, SSGC, PTCL, NHA shall also make similar arrangements and work in close liaison with the PDMA. Different proformas for sending DSR (Daily Situation Report) will be circulated by PDMA for the purpose.

The Divisional and District Administrations shall also make similar arrangements and an officer will be the Incharge of Control Room who will have all relevant information with him. The District Control Room shall send a DSR on daily basis to Divisional Control Room by 1300 hrs and the Divisional Control Room shall send its report to PDMA 1400 hrs which shall issue an official bulletin by 1600 hrs on daily basis.

8. Appointment of Focal Persons

All relevant departments shall appoint a focal person not less than grade 17 officer and his contact details will be circulated by 20th June, 2012 so that in case no response is coming from the Control Room this focal person may be contacted. The focal person is supposed to be up-dated on all issues pertaining to Monsoon, 2012 relevant to his department.

9. Demand of Funds

It has already been decided by the Provincial Government that in future all the funds relevant to Floods/Disaster Management shall be released through PDMA Balochistan. All departments and Divisional/District Administrations shall make rationalized demand to PDMA who shall take it up with Finance Department and accordingly funds will be released to them. Issues regarding head of account are being settled with Finance Department and Accountant General Balochistan.

10. Communication of Information

During Flood 2010 it was experienced that proper information was not coming up from the districts due

to which many problems were even today are being faced. Since no chain of Command was clearly defined therefore information was being sent to un-directed areas. This year it has been arranged that services of IT qualified persons are hired through some donors at least in flood affected districts these persons shall be stationed in the offices of the concerned Deputy Commissioners. The PDMA has devised various proformas for mitigating the floods 2012 which are also being circulated to all the districts. The IT persons posted in the office of Deputy Commissioner shall compile the information on daily basis and then through e mail shall communicate the same to PDMA which shall receive and compile the information on daily basis. But this arrangement is being made in order to facilitate the Deputy Commissioners it does not mean that by posting of a representative they are being absolved of the responsibility. They shall remain over all Incharge and shall be responsible for all operations of the flood including transmission of information to the PDMA. No Commissioner or Deputy Commissioner shall add or modify the proformas as the same are being designed as per requirement of donors, human response agencies and NADRA and it will enable to collect similar information from all the districts.

11. Role of Donors, UN Agencies, NGOs and INGOs

It is the Provincial Government which will decide as and when to make a formal request for the UN Agencies to support for the purpose. for every body's conveyance it is reiterated that any UN agency or donor who intends to work for the Disaster Management shall sign a Memorandum of Understanding with PDMA who shall also allocate the area/districts for the purpose. Only those INGOs and NGOs shall be allowed to work for these disasters that have got them registered with PDMA. All donors, UN agencies, INGOs and NGOs shall work in close coordination with Divisional and District administrations and shall work under their supervision and guidance and shall also submit their progress report to them. For each intervention separate MOU will have to be signed.

12. Establishment of Camps

The District Administrations shall in advance identify the sites where they intend to establish camps. Whenever a camp will be established registration of its population will be ensured. Officials in advance shall be deputed to take the responsibility of the camps.

13. Distribution of Relief

For the first few days when District Administration feels appropriate it can distribute cooked meals and then shall distribute the dry ration, non food and food items. But a proper account family-wise will be maintained so that a proper account is kept for each family. Moreover as and when any NGO is assigned any camp or area it will also keep record as per instructions of PDMA and DDMA. The DDMA/District Administration shall also have every right to monitor the performance of any NGOs and if any NGO or INGO found working against the instructions or desire of the DDMA/District Administration it will be stopped to work and will be recommended to black list the NGO and its office bearers.

14. Assessment of Damages

Immediately after any disaster or floods the DDMA or District Administration shall go for rapid need assessment on the given proforma and shall communicate to the PDMA on the given format through above mentioned network. This rapid need assessment will facilitate the PDMA and the Provincial Government for a rough estimation. As and when situation improves door to door assessment as Notified by PDMA at different levels shall be undertaken. The concerned Deputy Commissioners shall be responsible for both assessments. Efforts shall be made to communicate the result of assessment duly approved by the District Assessment Committee to the PDMA for placing the same before the Provincial level committee and publish the same for the information of all concerned.

15. Restoration of Essential Services and links

Immediately after any disaster the concerned department will initiate efforts for restoration of its services under supervision of concerned Deputy Commissioner. Every department shall ensure that no staff of its field staff remains absent or on leave. All kinds of leaves already allowed may be cancelled

before the start of flood season. All heads of departments at district and divisional level shall not leave headquarter without the permission of Deputy Commissioner and Commissioners respectively.

16. Chain of Command

The Captain of the ship in the district will be the Deputy Commissioner of the district who is also Chairman of the DDMA concerned. Although no role of Divisional Commissioner has been defined in the National Disaster Management Act, 2010 but he will be over all Incharge of the affairs in the Division and all the Deputy Commissioners in the Division shall be accountable to him and shall carry out relief work under his guidance. The Commissioners shall report all the issues relating to disaster management to the PDMA. The PDMA shall be the Authority to issue any press note for the media.

17. Miscellaneous

Any event or issue which has not been mentioned in the preceding paras will be decided and dealt with by PDMA and it will have the right to amend, modify, revise, add or withdraw any other issue in the SOPs as and when it deems necessary.

It issues with the prior approval of the Chief Secretary Balochistan

TORs/SOPs

PROVINCIAL EMERGENCY OPERATIONS CENTER

Provincial Disaster Management Authority Balochistan

XI. INTRODUCTION

The Provincial Disaster Management Authority Balochistan has been constituted under the National Disaster Management Ordinance, 2006 (now National Disaster Management Act, 2011) and it will be the lead agency in any other disaster. All search, rescue, relief efforts shall be carried out under the guidance and supervision of PDMA Balochistan. All Federal Departments rendering services in the Province, Provincial Government Departments, Divisional and District Administrations will correspond with PDMA regarding all issues of disasters, including latest situation, release of funds and other assistance. The establishment of the Provincial Disaster Management Authority has enabled the Government, to go a long way in attempting to set-up mechanisms that can play a crucial role in Disaster Risk Management.

XII. PEOC RATIONALE

Disasters are unresolved development problems. Inappropriate development initiatives and lack of real time data/information, integrated and holistic approach towards addressing development problems, lack of coordination and communications have made the environment a rather intricate issue in Balochistan, thus complicating the disaster risks and vulnerabilities in the province. The lessons learnt from past disasters (2005, 2007, 2010 floods) call for quick and effective actions to control the situation and above all save lives. Thus PDMA Balochistan realizing the importance of Coordination and communication and real time data decided to establish Provincial Emergency Operation Center to address all above queries. With the establishment of the Provincial Emergency Operations Center, a bridge and platform for timely, accurate and concerted efforts are now a part of the Government machinery.

XIII. FUNCTIONS

The Provincial Emergency Operations Center (PEOC) will serve as a centralized management center for emergency operations carried out in the Province. PEOC in Quetta shall be responsible for carrying out the principles of emergency preparedness and emergency management, or disaster management functions at a strategic level in

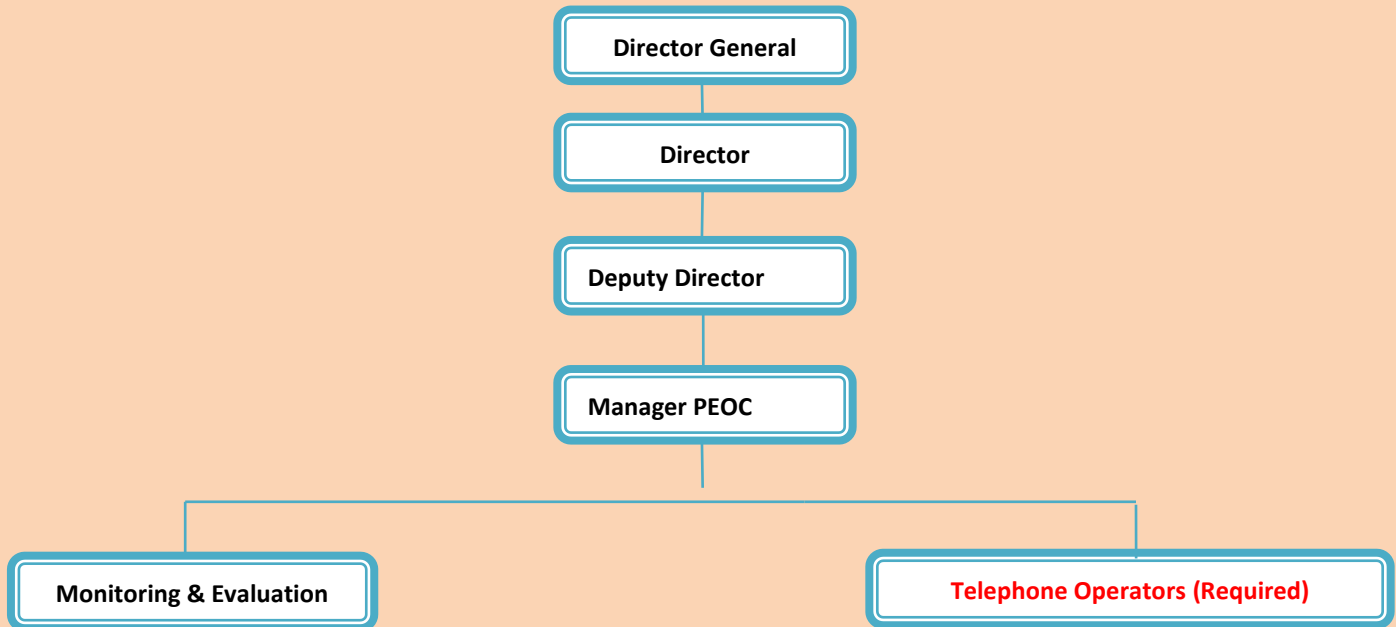

an emergency situation, and ensuring the continuity of operations of a Provincial Disaster Management Authority. The PEOC will perform the following functions;

- xi. Coordination and Communications among the PDMA, District Governments, Government Line Departments and UN agencies/INGOs/NGOs
- xii. Policy/Planning/Decision making
- xiii. Operations
- xiv. Resource requesting, dispatch and tracking
- xv. Information collection, analysis and dissemination
- xvi. Preparing operational updates, situation reports
- xvii. Obtain, process, disseminate and manage all data, information
- xviii. Forward planning
- xix. Facilitate task and Problem management
- xx. Hosting visitors (VIPs) briefings and debriefings

XIV. PEOC STAFF

S/N	Job Title	No of Vacancies
1	Consultant DRR	1
2	Manager PEOC	1
3	Monitoring Officer	1

XV. ORGANGRAM

XVI. TOR's OF PEOC STAFF

DRR CONSULTANT PEOC QUETTA

RESPONSIBILITIES

Review existing contingency plans, historical records frequency of hazard occurrence and determine corresponding humanitarian caseloads for earthquake.

Map resources for response in various disasters and identify deficiencies;

Define sectoral response strategies, plans and coordination measures;

Analyze & study prevalent contingency planning formats and procedures for earthquake, drought and flood through involving relevant stakeholders;

Define standardized contingency planning concepts, procedures and formats at national level in line with international best practices;

Share the standardized contingency planning formats with provincial and district authorities in order to achieve consensus of all stakeholders including; e.g. civil, military, international organizations, united nations, private sector etc.

Develop relevance of standardized contingency planning formats with disaster occurrence and existing response capacities;

Carry out contingency planning for earthquake, drought, and flood situations by involving relevant scientific and government departments including PDMA, and DDMA;

A number of case studies of earthquake programs to be used for learning purposes.

Carry out training of selected government official from PDMA and disaster vulnerable districts on new contingency planning formats;

Produce final document with technically required elements on Contingency Planning for Earthquake hazards.

MANAGER PROVINCIAL EMERGENCY CONTROL ROOM QUETTA

RESPONSIBILITIES

- Overall in charge of the PEOC
- Responsible for the proper and smooth working of the Emergency Center
- Coordinate disaster response/ crisis management activities.
- Provide strategic direction during an emergency response.
- Continuously monitor and plan/make adjustments during the emergency
- Coordination with the Districts
- Maintaining the Information loop within and outside of PDMA
- Design and implement database availability and recoverability strategies that are in line with organizational business continuity and disaster recovery needs.
- Strong knowledge of object oriented methodologies to develop Early Disaster Management information system for Balochistan Up to UC level information Management and development of “Monitoring and Inventory distribution system” to use during disaster Situation.
- Strong Reporting background to distribute work load between stakeholders to avoid duplication using Disaster Management information System.
- Serve as subject matter expert regarding optimal physical database design and SQL Server configurations.
- Work as Database Management, Administrator, Development Expert for Disaster Management System.
- Maintain, Develop and regularly update PDMA Balochistan Website. Optimize SQL Server and query performance using execution plan and performance counter trend analysis.

PROVINCIAL DISASTER MANAGEMENT AUTHORITY - BALOCHISTAN

- Maintain the security and confidentiality of data Write comprehensive technical procedure documentation, as needed.
- Acquire and maintain an in-depth knowledge of the application and service offering. Provide analytical, programming and application support to PDMA staff and stakeholder.

- Provide quality assurance and related reporting analytics. Disseminate MIS reports and GIS maps to the stakeholders and monitor the field activities related to data collection and its dissemination among the stakeholders.
- Ensuring data storage, archiving, backup and recovery procedures are functioning correctly. Maintain data standards, including data protection.
- Develop KML shape files and GIS Maps for the District for Disaster management.
- Configure Maintain and Evaluate Server, Internet and Network devices.

MONITORING & EVALUATION OFFICER:

- Designing M&E Tools for enhancing the performance of Emergency Control room.
- Co-ordinate and assist Manager ECR in completing the assigned task.
- Conducting Training for the capacity building of Districts Emergency Control room Staff.
- Ensure Daily Situation Report in case of Emergency.
- Data Collection, data analysis and preparation of progress reports.
- Preparation of daily situation report in case of any emergency.
- Work in cohesive with the Staff of PDMA for Strengthening & Capacity Building for effectively coping with any Emergency situation.
- Keep Improving M&E tools and techniques for continues improvement in Provincial ECR and DDMUS.
- Any other task assigned by the supervisor /PDMA.

XVII. PEOC STAFF SALARY

S#	Staff Designation	No. of Posts	Salary per Month PKR	Salary per Annum PKR
1	DRR Consultant	1	110,000	13,20,000
2	System administrator	1	70,000	840,000
3	Monitoring And Evaluation Officer	1	70,000	840,000
Total		3	250,000	30,00,000

XVIII. STANDARD OPERATING PROCEDURES

The Provincial Emergency Operations Center (PEOC) will serve as a centralized management center for emergency operations carried out in the Province. The PEOC will also serve as the focal point of the Government's coordination of response and Recovery activities during and after disasters and emergencies. Aim of these SOPs is to identify the role and responsibilities of PEOC and to identify nature of its coordination and communication with different stakeholders i.e District Administration, Government Line Departments, UN agencies etc.

ACTIVATION

The level for activating the PEOC will depend on the nature and scope of the threat of disaster to a part of the Province, District(s), Tehsil or Union Council(s) etc

PEOC ACTIVATION LEVELS

The levels/Stages are denoted by the following color codes

Level 1 –Green	Normal; Monitoring
Level 2 –Yellow	Watch; Alert
Level 3 –Orange	Partial Activation
Level 4 – Red	Full Scale Activation

As a matter of routine the PEOC will always be at Green; monitoring Level/Stage.

Level 1 - Normal - Situation is monitored by officers in PDMA

Level 2 - Watch - When an event/disaster may occur - notification is made to Agencies / departments and organizations and support staff who would need to take action as part of their responsibilities.

Level 3 - Partial Activation - Limited activation of PEOC when an event/disaster is very probable or following an event which doesn't require full activation. All primary or lead staff will be notified and will staff the PEOC.

Level 4 - Full Scale Activation - All primary and support agencies are notified. All PDMA support personnel will staff the Emergency Operation Centre. Depending on the nature of emergency, the PEOC may operate round the clock.

STAFFING:

The Director General PDMA is responsible for coordinating all components of the Disaster Risk Management Systems for the Province. The components consist of activities related to mitigation, preparedness, response and recovery.

XIX. PEOC ACTIVATION PROCEDURES

In case of a Partial or Full activation, the following process/procedure would be followed

1. The Manager PEOC would inform the Assistant Director (Relief), Deputy Director PDMA, Director PDMA, and DG PDMA.
2. Staff of PEOC mobilised

3. Depending upon the nature and extent of the disaster, extra PDMA staff mobilised/put on alert/standby
4. Relevant Districts/Departments/Actors informed, Focal points notified
5. Media Team/Spokespersons activated and notified
6. If required Govt higher authorities informed
7. Warehouse mobilised

XX. OPERATIONS

The operations would be undertaken by the PEOC team, headed by the DG PDMA, Director PDMA and Deputy Director PDMA

Response: This would entail:

Search and Rescue

Military Support

Communications

Mass Care

Firefighting

Health and Medical

Law Enforcement

Actions:

Planning

Resource mapping and support

Message tracking:

Incoming messages to the PEOC will be captured in writing (forms).

Upon completion, these form(s) will be forwarded to the Office in charge (OIC) for appropriate action and dissemination.

Incoming messages will be saved in the appropriate disaster operations file.

All outgoing messages will be reviewed and approved before being sent out by the OIC.

After outgoing messages have been sent, they will be saved in the appropriate disaster Operations file.

Requests for support:

The PEOC will be responsible for requesting assistance from agencies / organizations to address equipment and personnel resource needs during a disaster.

Requests for assistance will be recorded (Forms) and reviewed by the OIC.

The original message requesting assistance will be placed in the appropriate disaster operations file.

Requests will be tracked and followed up until completion and then filed.

Information Dissemination:

A daily briefing will be held to update agencies / organizations on the status of emergency operations.

Additional daily briefings will be scheduled as necessary.

A daily Situation Report will be prepared and shared with the relevant/concerned authorities.

Additional Situation Reports will be provided and disseminated as warranted.

Information will be disseminated to the public/media etc through the PDMA Media team.

Stand down:

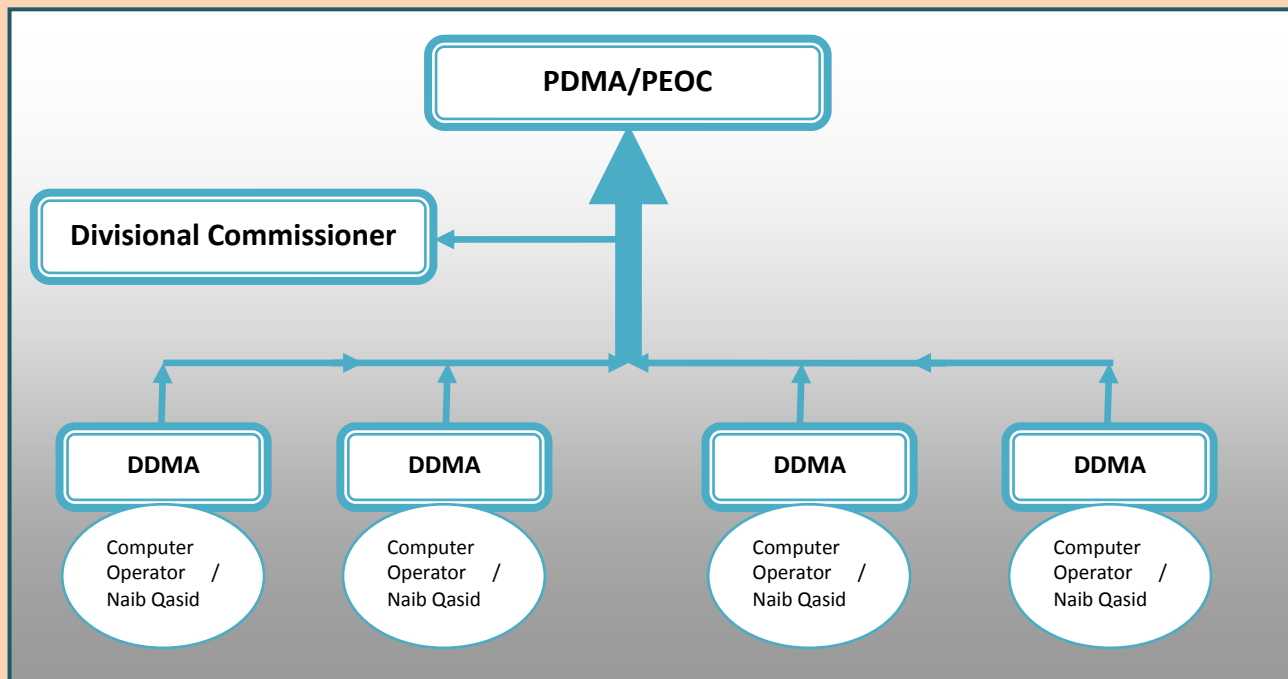

When an emergency/operation is over/finished the Manager PEOC will declare so, in writing and ensure this information is passed onto all the relevant/concerned actors.

A stand down notification will be issued.

The operation and procedures will be assessed for improvement.

XXI. DDMA's - DISTRICT EMERGENCY CONTROL ROOMS

The District Disaster Management Authority DDMA forms the focal point for all DRM related activities in the district. It is therefore important, that the SOPs developed for the PEOC also include a portion on the functions and role of the DDMA's in case of disasters and otherwise. *Organogram: (Flow of Information)*

Functions

- xxi. Hosting visitors (VIPs) briefings and debriefings
- xxii. Obtain, process, disseminate and manage all data, information
- xxiii. Forward planning
- xxiv. Coordination and Communications
- xxv. Policy/Plan/Decision making
- xxvi. Operations
- xxvii. Resource requesting, dispatch and tracking
- xxviii. Information collection, analysis and dissemination
- xxix. Preparing operational updates, situation reports
- xxx. Facilitate task and Problem management

The above mentioned functions entail many responsibilities on the DEOC

XXII. SOPs

Activation:

With the activation of the PEOC, the emergency mode of the DEOC will also be activated. During normal times, as with the PEOC in PDMA HQ, the DEOC will be on the Monitoring level.

As the DEOC falls under the DC's Office, all activities will be executed with/through the DC.
